The banner features the MOIL Limited logo at the top left and the Central Vigilance Commission logo at the bottom left. The central text reads: "Let's join hands and make it our mission to end **CORRUPTION**". Below this, it states "Vigilance Awareness Week 2022" and "31st October to 6th November, 2022". The slogan "अभ्रष्टाचार मुक्त भारत - विकसित भारत" and "Corruption Free India For A developed nation" is displayed in yellow. A hand holding a torch is on the right. At the bottom, it says "Please take 'integrity pledge' by logging into pledge.cvc.nic.in".

Comprehensive guidelines on Complaint Handling Mechanism-Part 9

PIDPI COMPLAINTS

Genesis

The Hon'ble Supreme Court of India, while hearing the Writ Petition (C) no. 539/2003 relating to the murder of Sh. Satyendra Dubey, directed the Government of India to set up a suitable mechanism for receipt and enactment of complaints from "Whistle-Blowers". Accordingly, Department of Personnel and Training issued Resolution No. 89 dated 21st April, 2004, commonly known as Public Interest Disclosure and Protection of Informers Resolution, 2004, resolving to set up a mechanism by which a complainant can lodge a complaint in the prescribed manner and also seek protection against his victimization for doing so. (Such complainants, called Whistle Blowers, are entitled to non-disclosures of their identity publically, unless, they themselves do so). The Central Vigilance Commission has been authorized under the PIDPI Resolution, as the Designated Agency to receive complaints from whistle blowers.

MODUS OPERANDI OF FINANCIAL FRAUDSTERS-Part 6

Reserve Bank of India has taken initiative by publishing a booklet on modus operandi of financial fraudsters for consumer awareness. To prevent MOIL employees from such fraudsters in their professional and Personal capacity while making financial transactions and their activities in social media, it is reproduced below:

JUICE JACKING - STEALING OF DATA THROUGH CHARGING CABLE

Raju had to leave due to a medical emergency. He realizes that his phone battery is low.

While charging, the charging cable injects the virus into Raju's mobile.

During the next few days, the fraudster captured all details entered by Raju on his mobile and got hold of vital bank details like username, password etc.

One day, Raju receives SMSs/emails indicating unauthorized debits in his savings account...

Raju: "Oh no! My battery got drained, and I don't have a charger."

Click! Click!

...and realizes that his account has been compromised somewhere.

A fraudster installs a charging cable with a virus and leaves it at the charging point in a public place. Raju notices the charging point with the charging cable and asks the fraudster if he can use it.

Raju: "Hi! Can I use your charging cable?"

Fraudster: "Why not! Please use it."

Do's

- ✓ Install anti-virus software on your mobile phone to protect it from unauthorized access.
- ✓ Report the incident to the nearest Cyber Crime Police Station and National Cyber Crime Reporting Portal at <https://cybercrime.gov.in>

Don'ts

- ✗ Don't use charging adapters/cables from strangers.
